## Description

### Nimbus 365 Coupe

Powered by a Volvo Penta D4-270 191 kW (260 hp) engine with engine upgrade options available. Price is for standard boat + options.

A long-distance cruiser for the conscious customer who enjoys social activities, comfortable living, and easy handling.

International award winning boat with superior "all round" qualities, where socializing and other onboard activities have been combined with excellent long cruising characteristics. The 365 is all about functional design and is built for the conscious yachtsman who appreciates simplicity, comfort, and safety but also for families who want to enjoy a perfect weekend cruise.

### Passion And Love For Boating 1968.

It started in the early seventies when Volvo Penta needed a new kind of boat to suit their newly developed engine. An innovative group of people quickly seized the opportunity to create a new kind of boat for the social lifestyle. The Nimbus 26 was born and along with it a company that would become one of Europe's most renowned boat manufacturers. The company's history is a true success story, a tale of innovation, perfect timing and survival. But most of all a story about people who know about boats and their passion and love for boating. A story still being told.
