Description

Williams Jet Tender DieselJet 415

Powered by a Yanmar 4JH4 110hp Diesel jet engine.

Williams Jet tender's most compact DieselJet brings the craft, practicality and comfort of the DieselJet range to owners of 75ft yachts for the first time. Don't be fooled by its small size, the 100HP Yanmar engine hits a max speed of 57km/h. This compact and fun tender lets you and five passengers feel the signature thrill of a Williams Jet tender.

The DieselJet's folding helm and windscreen - as well as its optional single-point lift - lets you reduce the boat's height, so you can say goodbye to those precariously tight garage fitments.

Specifications:

- LOA: 4.16m / 13ft 6in
- Beam: 1.96m / 6ft 4in
- Dry Weight: 820kg
