## Description

### Nimbus T9 OB

Powered by a Mercury Verado 300hp engine, standard boat. Price is for standard boat + options.

The T9 is the first model in our new Tender series, Nimbus' new interpretation of the popular Nova, first introduced in 1991. Since then, approximately 2,300 boats have been produced in the Nimbus Nova series, among them the highly successful 26 Nova and the prize-winning R-series that included the 230R, 250R and 300R.

"The renewal of a series that has proved so successful, and that is so strongly associated with Nimbus' DNA and brand, is no easy task. This heritage has truly permeated every area and phase, from concept design, construction, functionality and appearance down to the finest details. Everyone involved has worked with the aim of making the T9 the best product conceivable and thus a worthy successor to the Nova," says Joacim Gustavsson, Chief Designer at Nimbus Boats Sweden.

### Passion And Love For Boating 1968.

It started in the early seventies when Volvo Penta needed a new kind of boat to suit their newly developed engine. An innovative group of people quickly seized the opportunity to create a new kind of boat for the social lifestyle. The Nimbus 26 was born and along with it a company that would become one of Europe's most renowned boat manufacturers. The company's history is a true success story, a tale of innovation, perfect timing and survival. But most of all a story about people who know about boats and their passion and love for boating. A story still being told.

### Specifications:

- Length 9.35m / 30.6"
- Width 2.95m / 9.68"
- Weight Incl. 350hp Engine 2800kg
