## Description

### Nimbus C8 OB

Powered by a Mercury Verado V8 250 hp (cold fusion white). Price is for standard boat + options.

The C8 is the third in the Nimbus Commuter series following the latest C9 and C11 models. The C8 is a purpose-built, rapid commuter vessel, constructed to equally meet the needs of year-round commuters, active day-trippers or those planning shorter, staged journeys with overnight stays.

Like its siblings, the C8 has a wide walk-around design which contributes to extra freedom and makes it easy to move around onboard.

Thanks to its easy-to-use, functional and agile design, it is the perfect choice for those who want to use their boat daily, regardless of the weather. In C8, priority is given to space, surfaces and functionality that provide the best possible moveability and a feeling of freedom onboard. The result is easily accessible storage spaces, wide walkways, large sliding doors and wide passages.

C8 is a flexible and comfortable year-round commuter that works just as well whether you are travelling alone or with company. Despite the smaller size, we have prioritised space that makes it easy to get on or off and move onboard. The trick with the C8 was to build in the same high level of functionality and flexibility as the C9 but in a smaller hull, says Joacim Gustavsson, chief designer at Nimbus Boats Sweden AB

### Specifications:

- Length 7,93 m / 26'2"
